As PSR places students in field education sites, it assumes that each site has in force a safe congregation/ safe agency policy that includes protection of children and vulnerable adults and establishes clear guidelines to protect all persons from sexual and other forms of harassment. The responsibility for implementing and enforcing such a policy belongs to the site where the student's field education is being carried out, and PSR relies upon the site's policies and personnel to do so.

**Please sign to acknowledge that you have a safe congregation / safe agency policy.**
